FINELINE™ DOUBLE SIDED FLOOR DISPLAY

The floor display has a frame with a depth of 18 mm, which is so discrete and stylish that it fits into the most demanding environments. The frame is double-sided and you can easily change the banners for each campaign. The banner is attached by a thin magnetic strip around the whole reverse side.

FINELINE™ FLOOR DISPLAY ADJUSTMENT AND ATTACHMENT

FineLine floor display comes prepared for customization and accessories. The footplate is available in three standard colors: silver, black and white. In addition, we can print a logo or message on it. All foot plates are equipped with four extra holes to easily mount accessories such as brochure or product holders.

FINELINE™ SINGLE SIDED WALL DISPLAY

FineLine is a system which provides a solution for most spaces in store. Our FineLine wall displays use a 9 mm or a 18 mm frame depending on the size. Since the display is wall mounted, this model is one-sided and you can easily change the banners since they have a thin magnetic strip around the whole reverse side.

FINELINE™ DOUBLE SIDED HANGING DISPLAY

Our hanging displays hang from the ceiling on strong, discreet wires. This gives you the chance to use all types of spaces for inspiration, information and sales – for example, double-sided banners in a display window or hanging from the ceiling where floor space is limited.

DISTRIBUTION

What all Adder's display systems have in common is that it is extremely easy to change the banners, which, combined with efficient logistics, means that the effect of the marketing is guaranteed - it gets out, and it gets to stay! Whether its placed in our own stores, shop-in-shops, exhibitions or in a dealer network, we wrap and ship in bulk or individually – centrally or directly. It should be easy to be efficient: Deliver an artwork, and we take care of the rest!
